

The meeting on Alternative Energy Sources has been rescheduled for **Saturday, February 7 at 10:00 AM, at the North Egremont Firehouse.**

**Please park at Town Hall.**

Representatives from three companies that provide energy from renewable resources will present their plans. The companies are Community Energy, Viridian, and NuWatt.

If you bring your own National Grid bill, they can show you the advantages of their plans.

This is especially for those who wanted solar but couldn't have it for one reason or another.
