**Conservation Commission Emergency Certification**

(Required for breaching dam or installation of water flow devices)

Permission to breach dam \_\_\_\_\_

Permission to employ water flow devices \_\_\_\_\_

Approved by the E Conservation Commission \_\_\_\_\_ Date \_\_\_\_\_

**10-Day Emergency Beaver Permit**

In accordance with and pursuant to provisions contained in Chapter 131 MGL Section 40, 80A and 321 CMR 2.08 and 10, the applicant and his agent may immediately remedy the threat to human health and safety by

Use of Conibear or Cage Traps  Breaching of Dams  Water Flow Device

**Conditions of Permit:** Any disturbance within a wetland, such as breaching a dam or the installation of a water leveling device, shall only be performed with the permission of the Conservation Commission. Breaching of dams requires a plan to prevent sudden flooding down stream. This permit does not allow applicant or his agent to trespass on private property. A copy of this permit should be carried on the person doing the work. Contractor or Trapper must provide written report of work done to Board of Health.
